MAHARASHTRA KHARIF DROUGHT 2026

Official Notification Summary & Relief Benefits for Mukhed Taluka

1. Overview of the Declaration

On **September 25–26, 2026**, the Government of Maharashtra officially released the **Trigger-1 (■■■■■ ■■) drought notification** via a formal Government Resolution (GR). Due to an overall 18.8% rainfall deficit across the state and extended mid-monsoon dry spells, **265 out of 358 talukas** (approximately 74% of the state's total area) have been declared drought-affected.

2. Impact on Mukhed & Nanded District

Mukhed taluka falls under the **Nanded District** within the Chhatrapati Sambhajinagar (Marathwada) revenue division. Marathwada is among the most heavily impacted regions in the state, with 74 out of 76 talukas triggering drought parameters. A total of 14 talukas in Nanded district, including Mukhed, have been included in the official Trigger-1 declaration.

3. Authorized 12-Point Relief Package

Following the Trigger-1 activation, the administration has authorized an immediate 12-point initial relief package for affected farmers and rural households in Mukhed:

- **Stay on Agriculture Loan Recovery:** Immediate halt on formal crop loan recovery actions.
- **Crop Loan Restructuring:** Provision to convert short-term agricultural loans into medium-term structures.
- **Land Revenue Waiver:** Concession in land revenue (■■■■■■■ ■■■■■■■ ■■■) for affected fields.
- **School & College Fee Waiver:** Complete exemption of exam fees for students residing in the taluka.
- **Agricultural Power Bill Concessions:** Concessions on active running bills for pumps above 7.5 HP.
- **Power Disconnection Exemption:** Mandated protection against disconnecting power to agricultural pump setups.
- **MGNREGS Target Relaxation:** Easing of employment generation criteria under rural employment schemes.
- **Drinking Water Supply:** Deployment of official water tankers to scarcity-hit rural pockets.
- **Fodder Depots & Cattle Camps:** Provisions for securing livestock fodder and setting up animal shelters.

- **Accelerated Panchnama:** Immediate mobilization of local revenue and agriculture officers for field inspections.
- **Local Grievance Redressal:** Setting up sub-district desk units to address application blockages.
- **Trigger-2 Technical Tracking:** Inclusion in the priority data pipeline ahead of the definitive severity declaration.

4. Next Steps & Timeline

District Collectors have been directed to immediately speed up geotagged and GPS-enabled ground-level crop damage assessments (*panchnamas*). The technical evaluation covering soil moisture indices, reservoir levels, and satellite vegetation indices (NDVI) will conclude next month. The final **Trigger-2 severity status** and subsequent NDRF compensation distribution lists are expected to be released before the statutory deadline of **October 30, 2026**.
